Review Checklist

- Authority routing diff is clear for the current snapshot.
- Release candidate promotion may proceed under the current engineer-in-loop model.

Review Packet Rows

holdout_routing_reference | priority=reference | change=none | track=opensees | submodel=SCBF16B | story/zone=S04/perimeter | member=wall

owner=기존툴+기술사 | why=Routing matrix links active authority submodels to dominant story/zone/member-family review pockets so the remaining manual and legacy-tool work stays explicit.

holdout_routing_reference | priority=reference | change=none | track=opensees | submodel=SCBF16B_shell_beam_mix | story/zone=S01/intermediate | member=slab

owner=기존툴+기술사 | why=Routing matrix links active authority submodels to dominant story/zone/member-family review pockets so the remaining manual and legacy-tool work stays explicit.

holdout_routing_reference | priority=reference | change=none | track=sac | submodel=SCBF16B | story/zone=S02/perimeter | member=beam

owner=기존툴+기술사 | why=Routing matrix links active authority submodels to dominant story/zone/member-family review pockets so the remaining manual and legacy-tool work stays explicit.

holdout_routing_reference | priority=reference | change=none | track=sac | submodel=SCBF16B_shell_beam_mix | story/zone=S03/intermediate | member=column

owner=기존툴+기술사 | why=Routing matrix links active authority submodels to dominant story/zone/member-family review pockets so the remaining manual and legacy-tool work stays explicit.

holdout_routing_reference | priority=reference | change=none | track=nheri | submodel=nheri_case01_sensor | story/zone=S04/perimeter | member=wall

owner=기존툴+기술사 | why=Routing matrix links active authority submodels to dominant story/zone/member-family review pockets so the remaining manual and legacy-tool work stays explicit.

holdout_routing_reference | priority=reference | change=none | track=nheri | submodel=nheri_case02_sensor | story/zone=S01/intermediate | member=slab

owner=기존툴+기술사 | why=Routing matrix links active authority submodels to dominant story/zone/member-family review pockets so the remaining manual and legacy-tool work stays explicit.
